

# Pediatric Blood Pressure Chart

## PATIENT INFORMATION

Patient Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_ dd / mm / yyyy

Age: \_\_\_\_\_

Sex

Male  Female

Height Percentile: \_\_\_\_\_

## BLOOD PRESSURE MEASUREMENT

Date of Measurement: \_\_\_\_\_ dd / mm / yyyy      Systolic Blood Pressure (mmHg): \_\_\_\_\_

Diastolic Blood Pressure (mmHg): \_\_\_\_\_

Cuff Size Used

Infant (6-8 cm)     Child (8-13 cm)     Small Adult (13-16 cm)     Adult (16-20 cm)

Patient Position

Seated with feet flat     Back supported     Arm at heart level

Measurement Method

Auscultatory (stethoscope)     Oscillometric (automated device)

## BLOOD PRESSURE CLASSIFICATION

Blood Pressure Category

- Normal blood pressure: Less than 90th percentile
- Elevated blood pressure: 90th to less than 95th percentile (or 120/80 mmHg)
- Stage 1 hypertension: 95th percentile to less than 95th percentile plus 12 mmHg
- Stage 2 hypertension: 95th percentile plus 12 mmHg or greater (or 140/90 mmHg)

## CLINICAL NOTES
